Backyard BLISS

Start with simple elements that tie the overall look together—in this case, any-size doilies on a burlap runner set the tone.

Mismatched vases, jars and bottles add color and some fun flea-market charm. *TIP: Add some bright, quirky florals for extra height and interest.*

Incorporate mixed-and-matched details by sticking to 4 or 5 coordinating colors. *TIP: Doilies double as pretty placemats!*

Happy-colored pillows make the setting feel cozy.

Hang strands of festive string lights, and guests will want to stay and hang out—even after the sun goes down.
